

Community Liaison Group

Tuesday 25 February 2020

Agenda

1. Introductions
2. Update from CLG members
3. Project updates
4. Construction updates
5. Community engagement update
6. Questions

Safety moment

David Cullen

- Everyday more than one construction worker takes their own life. In 2016, the figure was put at 450 – three times the UK rate for men and six times the fatality rate for falls from height.
- The industry is overwhelmingly (more than 80%) male – and men are far more likely to take their lives than women.
- Workers spend long periods away from home, friends and family, in an unforgiving culture.
- Loneliness; social isolation; gambling; alcohol abuse; bullying; job insecurity; abnormal hours.
- As a Client we will work collaboratively with suppliers around workforce welfare; e.g. information, training, advice and guidance; a 24-hour helpline; mental health first aiders; occupational health provision; welfare facilities.

Introductions

CLG members

Updates from CLG members

CLG members

Update from CLG members

- Have you got an update to share with the CLG?

Project updates

David Cullen

- Government granted approval to build and operate a new Energy Recovery Facility in 2017
- Treating 700,000 tonnes of waste per year at Edmonton EcoPark
- Enabling us to continue managing the waste that cannot be recycled in a proven, environmentally-friendly and cost-effective way
- The NLHPP will create new jobs and local supply chain opportunities

NLHPP introduction

First NLHPP apprentice

- The first **NLHPP apprentice** started working for Enfield-based construction company Galldris who are delivering the northern access works
- The **apprenticeship is the first of 100** being delivered as part of the project and is in partnership with training providers including local colleges

On-site skills training

- **225 on-site skills training** opportunities for residents of Enfield, Haringey or Waltham Forest
- Exploring opportunities to provide the training with **Capital City College Training (CCCT)**
- A detailed curriculum is currently being developed to include pre-employment training for school leavers or unemployed who are considering working in the construction industry
- The first trainee is due to start in Spring 2020

Project targets

- **We're aiming for a local employment target of 25%**
 - We recognise the importance of maximising local benefits
 - Our contractors report to us on actions they are taking to advertise jobs and promote recruitment locally
 - Future contractors will be required to adhere to the Employment Relations Code of Practice which includes the requirement to prioritise suitably qualified local candidates
- **We're aiming for a local expenditure target of 10%**

Site preparation works

- Laydown Area
- Northern Access works
- Transport Yard
- Sewer Diversion

- The EcoPark south package of works includes construction the new **Resource Recovery Facility (RRF)** and **EcoPark House**
- The procurement started at the end of 2019 and the tender was officially launched at the start of 2020

Energy Recovery Facility (ERF) Procurement

- In January we held the first **Market Information Event** for the ERF
- An opportunity for potential suppliers to find out about **works associated with the ERF**
- Procurement is expected to launch in **July 2020**
- Contract awarded expected **April 2022**

February 2020 Construction Update

Lee Park Way diversion

- A diversion is in place for pedestrians and cyclists travelling along **Lee Park Way**.
- The diversion is in place between **February and September 2020**. Further information is available on our website.
- The diversion is to allow for refurbishment and construction as part of the project and to ensure public safety is maintained

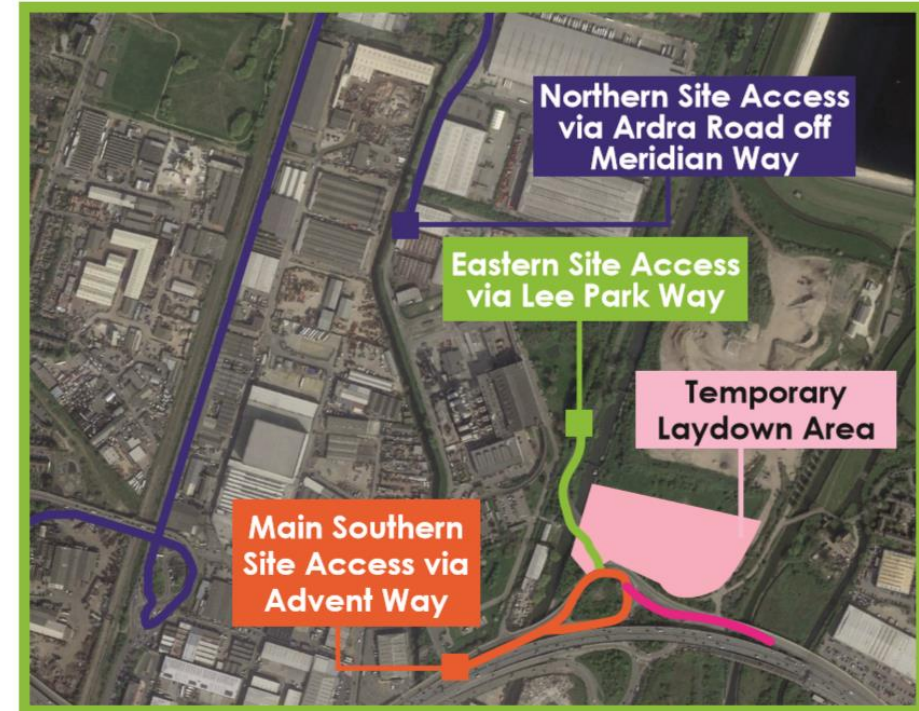

Weekend works on the EcoPark site

- From **Friday 28 February** until **Sunday 1 March**, Galldris will be carrying out weekend works within the EcoPark site
- Whilst we don't anticipate this will impact neighbouring businesses, we wanted to make you aware

- As part of the DCO obligations a traffic management plan is place
- As construction progresses on-site we are reviewing the plan and are regularly liaising with neighbouring businesses to find solutions for managing high traffic volumes
- We welcome your feedback on our traffic management plan

Community engagement update

Trudi Axtens

- We held our **third community Roadshow** at Edmonton Green shopping centre on 19 December
- We are planning the next Roadshow during the Easter holidays at an Edmonton supermarket

- The next community newsletter will be distributed this week and will include information on the latest project news and upcoming on-site activities

School engagement programme

- A schools programme with Key Stage 3 (11-14 year olds) to **stimulate interest in STEM subjects** and construction/waste infrastructure related careers
- Potential to reach out to and benefit local communities, in particular young people who could feasibly become part of the NLHPP's workforce

- On **Saturday 29 February** NLWA are holding an event at Edmonton Green Shopping Centre as part of the **Keep Britain Tidy** campaign
- The event focused on #SaveYourSpuds will include cookery demonstrations and tips on how to reduce food waste

Low Plastic Zones

- NLWA recently launched the UK's first ever **Low Plastic Zone**
- The initiative will encourage businesses across north London to reduce the use of excessive and unnecessary plastics

Questions?
